

Hamza Khaled

Full Stack JavaScript & Mobile Developer · MERN · React Native

Sousse, Tunisia | +216 25 178 855 | hamza.khaled@polytechnicien.tn

hamza-khaled.netlify.app | github.com/hamzakh86 | linkedin.com/in/hamza-khaled-16a114290

Full Stack JavaScript & Mobile Developer specializing in **React.js**, **Node.js** and **React Native** — **10+** web and mobile applications delivered to production, including a freelance e-commerce platform consisting of **4 connected applications** (mobile, web, admin, backend). Proficient in **RESTful APIs**, **JWT**, **CI/CD** (GitHub Actions, Docker) and **Scrum/Agile** methodologies through **4 internships**. Engineering student at **EPS Sousse**, seeking a **summer internship or work-study program** to actively contribute to **Web & Mobile** projects within a technical team.

EXPERIENCE

• Full Stack Development Intern

June 2025 – Aug 2025

CodeAlpha · Remote

- Developed and deployed **4 full stack applications** (e-commerce, project management, social network) with **React**, **Node.js** and **JavaScript** using **component-based architecture**, delivered in **3-week sprints** following **Scrum** methodology.
- Designed **RESTful APIs** with **15+ endpoints**; integrated **PayPal** payment and **JWT** authentication; wrote **unit and integration tests** with **Jest**.
- Automated deployments via **CI/CD pipeline** using **GitHub Actions** and **Docker**; managed code with **Git** and weekly code reviews; used **Jira** for task tracking.
- Reduced API response time by **60%** using **Redis** caching.

• Front-End Developer Intern

June 2024 – Oct 2024

CelestialWave Digital · Sousse, Tunisia

- Developed **responsive UI components** using **React Hooks**; ensured **cross-browser compatibility** (Chrome, Firefox, Safari) and **accessibility (a11y)** with semantic HTML and ARIA attributes.
- Collaborated in **cross-functional teams** to integrate **REST APIs** and ensure smooth frontend/backend communication.
- Implemented **lazy loading** and performance optimizations; managed code using **Git feature branching**.

• Web Development Intern

May 2024 – June 2024

Prodigy InfoTech · Remote

- Delivered **4 production-ready projects in 6 weeks**, all meeting **100%** of requirements — demonstrating **adaptability** and **time management** under constraints.
- **Chrono Elite Pro**: **TypeScript** stopwatch with lap tracking, **CSV export** and **10+** keyboard shortcuts.
- **Tic-Tac-Toe AI**: Minimax AI opponent with **3 difficulty levels** and real-time statistics.
- **Portfolio**: built with **React.js**, fully **responsive**, deployed via **Netlify** with **SSR** support via **Next.js** at hamza-khaled.netlify.app.

• Full Stack JavaScript Developer Intern

Sep 2023 – Feb 2024

GoMyCode · Sousse, Tunisia

- Completed **500+** hours of hands-on MERN stack training; developed **5+** web applications with **React.js** and **Node.js** during a 6-month intensive bootcamp.
- Collaborated in teams of **3 to 5 developers** using **Git** and **Agile** practices to deliver **SPAs** with cross-browser compatibility.

KEY PROJECTS

• Hachka — Full Stack E-Commerce Platform (Freelance)

Mar 2026 – May 2026

React Native · AngularJS · MERN GitHub: github.com/hamzakh86

- Developed a complete e-commerce platform consisting of **4 connected applications**: **React Native** mobile app (**15+** screens), e-commerce website (**AngularJS**), admin dashboard (**AngularJS**) and centralized backend (**Node.js / Express.js**) — delivered in **10 weeks** working independently.
- Designed **RESTful APIs** with **20+ endpoints**; **JWT** authentication, management of **50+ products** with categories and advanced filters, cart, order management and complete **admin CRUD**.
- Designed responsive and **UI/UX-focused** interfaces across 3 platforms; optimized API response time; unified architecture connecting mobile, web and backend via **REST API**.
- *Stack: React Native, AngularJS, Node.js, Express.js, MongoDB, JWT, REST API, Git/GitHub*

• E-Commerce Platform

2025

GitHub: github.com/hamzakh86/codealpha-s-e-commerce | Live: hachkashopping.netlify.app

- Complete **SPA** store with **cart**, paginated product search and **admin dashboard** — supports **100+** products.
- **JWT** authentication with **bcryptjs**, rating/review system, **Multer** image upload, **PayPal** payment; deployed via **CI/CD** with **GitHub Actions** and **Docker**; tested with **Jest**.
- *Stack: MERN, Redux, PayPal, JWT, Jest, GitHub Actions, Docker, Redis*

• TeamSpace — Project Management App

2025

GitHub: github.com/hamzakh86/codealpha-teamspace | Live: teamspace.netlify.app

- Collaborative platform with **drag-and-drop boards**, lists and cards supporting **10+** simultaneous boards with real-time activity tracking.
- Task management with **5+** attributes per card and **multi-user collaboration** using **React Hooks** and **Context API**; **responsive UI** with cross-browser support.
- *Stack: React, Node.js, MongoDB, Express.js, Context API*

- **SocialWave — Social Network**

GitHub: [github.com/hamzakh86/codeAlpha-SocialWave](#) / Live: [socialwav.netlify.app](#)
 - Complete **SPA** with news feed, posts, comments, likes and follows; **JWT** + **Passport.js** authentication, admin dashboard with content moderation.
 - Deployment with **CI/CD** automation via **GitHub Actions**; fully **responsive**.
 - *Stack: MERN, Redux, Tailwind CSS, JWT, Passport.js, GitHub Actions*
- **Real Estate Marketplace**

GitHub: [github.com/hamzakh86/A-modern-real-estate-](#) / Live: [hamzaestate.netlify.app](#)
 - Responsive **SPA** for real estate listings with complete **CRUD**, **JWT** + **Firebase** + **Google OAuth** authentication, advanced filters and **SSR** via **Next.js**.
 - *Stack: MERN, Redux Toolkit, JWT, Firebase, Google OAuth, Next.js*

TECHNICAL SKILLS

Frontend	React.js, Next.js, JavaScript (ES6+), TypeScript, Tailwind CSS, Redux Toolkit, React Hooks, Context API
Mobile	React Native, Expo, React Navigation, responsive mobile UI, iOS & Android compatibility
Concepts	Responsive Design, SPA, SSR, Lazy Loading, Performance Optimization, Cross-browser compatibility, Accessibility
Backend	Node.js, Express.js, NestJS, RESTful APIs, JWT Authentication, Microservices
Testing	Jest , React Testing Library — unit & integration tests
DevOps	GitHub Actions, CI/CD Pipelines, Docker, Netlify, Render, Vercel
Code Management	Git , GitHub — feature branching, code reviews, pull requests
Agile	Scrum ceremonies, Jira (task tracking, sprint planning & documentation), feature branching, code reviews
Database	MongoDB, Mongoose ODM, PostgreSQL, Redis (caching)
Tools	Postman, Swagger, Figma, VS Code
Soft Skills	Problem Solving , Adaptability , Team Collaboration , Time Management, Autonomy

EDUCATION

- **Polytechnic School of Sousse (EPS)**

Engineering Student
 - **GoMyCode**

Full Stack JavaScript Developer Bootcamp
 - **IPEIGabès — Preparatory Institute for Engineering Studies**

Preparatory Class in Mathematics and Physics
 - **Abou L Kassem L Chebbi High School**

Baccalaureate in Mathematics

2025 – Present

Sousse, Tunisia

Sep 2023 – Feb 2024

Sousse, Tunisia

2020 – 2023

Gabès, Tunisia

2016 – 2020

Médenine, Tunisia

CERTIFICATIONS

Full Stack JavaScript Development	GoMyCode (2024)
Backend Development and APIs	freeCodeCamp (2024)
Frontend Development Libraries	freeCodeCamp (2024)
JavaScript Algorithms and Data Structures	freeCodeCamp (2024)
Responsive Web Design	freeCodeCamp (2024)
Postman API Fundamentals Student Expert	Postman (2024)
Scrum Fundamentals Certified	SCRUMstudy (2024)
